

Employee Suggestion # 2100

DRAFT

11/21/55

MGH

The procedure, as outlined in the attached employee's suggestion is one that has been under consideration for some time, by the Insurance Branch. Due to the recent reorganization and modification of operating procedures, the mailing of checks to all those desiring such service, was not forthcoming in all cases. However, checks have been mailed under certain conditions.

At present claimants are afforded a choice of picking up checks personally or having them mailed.

It is the opinion of this office that the adoption of this procedure was in no way due to this suggestion and therefore no monetary award is in order. The employee should, however, be commended for his suggestive thinking.
